FASTBIND CASEMATIC XT

ON DEMAND CASE MAKER

LIGHT TABLE WITH GUIDE LINE

SUCTION ASSISTANCE

FOR BOOKS UP TO LEDGER+ FORMAT

FASTBIND CASEMATIC XT

ON-DEMAND HARD COVER MAKING

Casematic XT represents a new step forward in Fastbind range for on-demand hard cover making. In a short time, you can be producing high-quality books in a wide variety of formats, from statement to ledger+ size. Once the cover is built, you can use a Fastbind binder to bind the content with either perfect binding or free-floating spine (lay-flat). Fully featured and compact, this tabletop unit can fit naturally in any environment and cover all short runs and on-demand needs.

BUILT-IN LIGHT TABLE

The unique card board positioning method makes it quicker than ever to register your board on the printed tacking cover: the light table includes a centre line, scaled and top line for the most accurate settings. A suction assistance for placing the tacking paper is controlled by a foot pedal. To complete this remarkable list of attributes, Fastbind Casematic XT also integrates a user-friendly edge-folding unit, with an adjustable roller gap for an easier operation. Anyone can create professional quality customized luxury book in minutes!

OTHER APPLICATIONS

The original design of the Fastbind Casematic XT allow not only to create book covers, but any other fully decorated hard cases: CD and DVD boxes, restaurant menus... You just need to change the two spine guides from an 0.315" groove to a 0.18" one.

FASTBIND SUPPLY PROGRAM

Fastbind can supply all the necessary materials to produce hard covers in a print-on-demand environment. The product family consists of printable tacking sheets (for laser or inkjet), adhesive endpapers, grey boards and laminating materials.
